

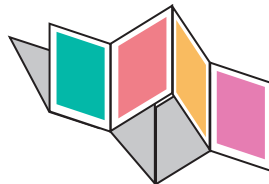

figure 8.

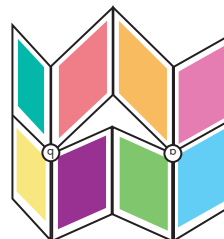

Step 8: Squeeze together in a cross shape, as shown in figure 8.

figure 7.

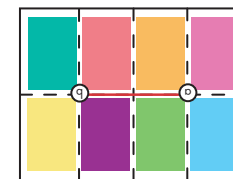

Step 7: Fold lengthwise as in figure 7.

figure 6.

Step 6: Figure 6 shows the paper with the slit already cut.

figure 5.

Step 5: Unfold the paper. With a razor blade or X-Acto knife, cut from point A to B. Use a cutting mat or a superhero comic underneath so you don't damage your table.

Step 9: Locate the cover and fold the completed booklet together.

figure 9.

NAKED RABBIT POCKET LIBRARY

Printing and Folding Instructions

These are just the instructions. The actual comic books - that you can download, print, and fold yourself - are available at the Naked Rabbit website, strangely, at nakedrabbit.com.

Step 1: Download the PDF and print it. These comics are designed for an 8 1/2" x 11" piece of paper.

You should print the file at 100%, centered on the page. Not all printers behave the same, so you may wish to test it out at a lower print resolution first. Small hairlines are provided where the folds go, and some trimming of excess paper may be necessary.

Those wishing to try with A4 size paper are encouraged to do so - some scaling may be required. Figure 1 shows the resulting printed file.

figure 1.

Step 2: Fold the paper lengthwise, as shown in figure 2.

figure 2.

Step 3: Unfold and fold the paper widthwise, as shown in figure 3.

figure 3.

figure 4.

Step 4: Fold the edges in toward the center of the paper, as shown in figure 4.
